

## **Laser Match Word List**

In Laser Match the words have been digitally enhanced to emphasize the rapidly changing phonetic elements within natural speech, helping the participant to develop listening accuracy. The participant progresses through 4 levels as follows:

- Level 1: words processed with highly emphasized phonemes.
- Level 2: words processed with less phoneme emphasis.
- Level 3: no processing, words presented in natural speech
- Level 4: no processing, nonsense words presented in natural speech

In the first 3 levels, the participant progresses through 11 word sets:

- Sets 1 – 3: words differ by initial/final consonant
- Sets 4 – 8: words differ by onset only
- Sets 9 – 11: words differ by vowel

In the final level, the participant progresses through 9 additional sets comprised of nonsense words:

- Sets 12 – 14: words differ by initial/final consonant
- Sets 15 – 17: words differ by onset only
- Sets 18 – 20: words differ by vowel

Within each level, the sets are presented in order. For each word set, the participant progresses through a series of stages. Each stage is made up of a specific grid size.

### **Group 1: Initial or Final Sound Change**

<b>Set 1</b>	<b>Set 2</b>	<b>Set 3</b>
big	buck	back
bit	bud	bag
dig	but	bat
dip	cup	cab
kick	cut	cap
kid	duck	cat
kit	dug	gap
pick	pub	pack
pig	pup	pat
pit	tub	tack
tick	tuck	tag
tip	tug	tap
